Did you see GE on Jeopardy?

A question and clue featuring the history and beginnings of GE was recently in an episode of the hit game show Jeopardy. Check out this [article](#) from [The Daily Gazette](#) showcasing the spotlight. #GEProud

Andrew Bachert

Principal Engineer,
Power Economics
GE Energy Consulting
[Read Andy's Bio](#) >

The Power of our People

For nearly a century, GE's Energy Consulting business has harnessed the Power of our People to provide customers and partners with innovative power industry solutions. Meet **Andrew "Andy" Bachert**, *Principal Engineer* with the Power Economics team, who provides expertise and insights on electricity market modeling, renewable integration, capacity and integrated resource planning. Andy is also one of our most requested [Power Systems and Energy Course \(PSEC\)](#) instructors. To connect with Andy visit geenergyconsulting.com today.

Register for GE PSLF UGM

The annual **GE PSLF User Group Meeting** is set for **April 28-29, 2020** at the [Embassy Suites Denver Tech Center](#) in **Denver, Colorado**. This year's meeting will feature a keynote presentation from Dr. Ben Kroposki, *Director of the Power Systems Engineering Center* at [NREL](#), entitled "Integrating High Levels of Variable Renewables to Electric Power Systems". For additional meeting details including hotel reservation link (coming soon) and to register online, visit [geenergyconsulting.com](#) today.

ICYMI...“100% Carbon-Free Systems” Workshop

Members of the GE Energy Consulting team recently shared insights with fellow industry colleagues and partners at New York ISO during the **“Experiences on the path to 100% carbon-free systems” Workshop**. This training session highlighted a variety of challenges and opportunities with renewable technologies and energy resources that system operators are factoring in planning for the grid of the future. Interested in learning more? Visit [geenergyconsulting.com](#) today.

Webinar and live Q&A

You're invited to join fellow industry colleagues and partners for the "[A Hydrogen Society: What It Takes](#)" webinar set for **February 11**. This panel discussion and Q&A session featuring experts from GE and IHS Markit Energy will focus on the current and future state of hydrogen, and the implications it has for power and the economy. For more information and to register, visit ge.com/power today.

GE at DistribuTECH 2020

Are you heading to [DistribuTECH 2020](#) in San Antonio, TX? If yes, please stop by the GE exhibit to connect with members of the GE community and team. GE Energy Consulting will be in attendance to share recent industry collaborations, projects from the [DSTAR](#) Consortium, and more. If you would like to setup a time to meet at DistribuTECH, [email](#) us today. Safe travels and we look forward to connecting at DistribuTECH.

Synchronous Condensers

Check out this recent article from GE Reports “[In Sync: How A Steam-Era Machine Can Upgrade The 21st Century Electric Grid](#)” that details the history, impact and role that synchronous condensers are playing in the grid of today and the future. For additional information on voltage control, reactive power adequacy, and planning, visit geenergyconsulting.com.

Education & Training

Since 1949, GE Energy Consulting has been providing a variety of power systems and energy courses for our customers, partners and users across the world. If you're looking for your next professional development course or you're in the market to plan a training for your team and organization, contact GE Energy Consulting to **CUSTOMIZE** your training program. Visit geenergyconsulting.com for more information and to access our catalog of courses.

GE Energy Consulting

For nearly a century, a core group of leading GE technical and business experts has focused its energies on solving the electric power industry's most pressing challenges - driving the evolution of electric power systems with greater affordability, reliability, and efficiency. Today, GE's Energy Consulting team continues this tradition by providing innovative solutions across the entire spectrum of power generation, delivery, and utilization. With our cross-company resources, GE's Energy Consulting business can serve a diverse global client base with a strong local presence.
