[ESIG 2020 Spring Technical Workshop](#) Tucson, AZ (March 16-19)

[The Responsible Business Summit](#) New York, NY (March 17-18)

[National Conference on Microgrids](#) Boston, MA (March 18-19)

[PSERC Executive Forum "Grid at the Edge"](#) Alexandria, VA (March 24-25)

If you're attending any of these upcoming events and would like to connect with members of our team, please [contact us](#) today.

Career Opportunities with GE

Are you looking for your next career opportunity? Look no further...GE Energy Consulting currently has some exciting opportunities to join our dynamic team of power systems engineers, economists and software specialists throughout the world. For more information and details, visit [GE Careers](#) today.

On February 10, 2020 Beth LaRose, GM and members of the GE Energy Consulting team celebrated Jason MacDowell, Technical Director, 20th Anniversary with GE.

Reminder...Register for GE PSLF UGM

The annual **GE PSLF User Group Meeting** is set for **April 28-29, 2020** at the [Embassy Suites Denver Tech Center](#) in Denver, Colorado. This year's meeting will feature a keynote presentation from Dr. Ben Kroposki, *Director of the Power Systems Engineering Center at NREL*, entitled "Integrating High Levels of Variable Renewables to Electric Power Systems".

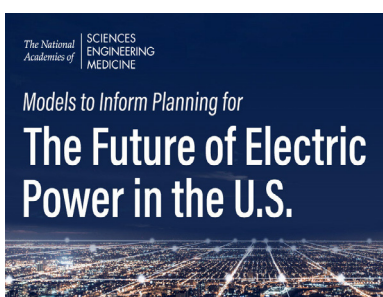

For additional meeting details including agenda, hotel reservation link (room block rate expires on April 13) and to register online, visit geenergyconsulting.com today.

The banner features the GE logo in the top left corner. Below it, the text "Energy Consulting" is displayed in white on a blue background. The main title "GE PSLF User Group Meeting" is prominently displayed in large white letters. At the bottom, the dates and location "APRIL 28-29, 2020 | DENVER, CO" are shown in white on a blue background. A dark blue button with the word "REGISTER" in white is located in the top right corner. The background of the banner is a stylized cityscape with a grid overlay.

ICYMI...“A Hydrogen Society: What it Takes” Webinar

In case you missed the GE Gas Power webinar “A Hydrogen Society: What it Takes” on February 11. Check out this [online experience](#) detailing more information on the role Hydrogen continues to and can play across the globe with power generation and reducing carbon emissions.

Workshop on the Future of Electric Power

GE Energy Consulting recently participated in the “Models to Inform Planning for the Future of Electric Power in the United States” workshop hosted by The National Academies of Science Engineering and Medicine – Board of Energy and Environmental Services on February 3 in Irvine, CA. Doug Welsh, Managing Director of Software Products, shared insights and market capabilities with attendees on current models used for transmission planning, including GE MAPS, GE MARS and GE PSLF. For additional details on the workshop and overall study being conducted by the National Academies of Science Engineering and Medicine, visit nationalacademies.org/dep/bees.

Education & Training

GE PSLF Training Courses 2020

GE Energy Consulting will be hosting several **GE PSLF Software** training programs throughout 2020, including **PSLF Fundamentals & Mechanics of Steady State Analysis**, April 20-23 at Training to You in Phoenix, AZ. For a full line up of course offerings, visit geenergyconsulting.com today.

GE Energy Consulting | Training Schedule for 2020 PSLF Classes

The GE Energy Consulting software team offers both custom and scheduled hands-on training courses for PSLF. A variety of courses for engineers with a range of familiarity with the software are held annually in the Phoenix, AZ area. Customized courses may also be provided on-site at customer locations. The sessions are designed to help you unlock the full power of your investment in the PSLF software product and add-ons. Many of our training engineers have practical experience providing consulting services using PSLF, and most have been actively involved in the development of the tools. If you are interested in a custom or onsite training course outside of our normally scheduled courses, please contact us.

LOCATION: TRAINING TO YOU, PHOENIX, AZ 85004 | CLASSES 8:00 AM - 5:00 PM INCLUDING LAST DAY

PSLF FUNDAMENTALS AND MECHANICS OF STEADY-STATE ANALYSIS

April 20-23, 2020
Cost: \$3,100 USD per student

INTRODUCTION TO POWER SYSTEM DYNAMIC SIMULATION IN PSLF

May 19-21, 2020
Cost: \$2,400 USD per student
