JUNE 2020

Better and Stronger Together

Over the last several weeks, communities across the United States and the globe have come together to raise awareness and rally for change against acts of social injustice and inequality that continue to plague society. Embracing diversity and inclusion are at the core of our GE's beliefs. We will continue to listen, act, and support our colleagues, partners and customers who have and continue to face discrimination and social injustices. Larry Culp, GE Chairman and CEO recently published [Moving Forward](#) on LinkedIn and shared GE's commitment to create sustainable change with real impact on inclusion and diversity.

As we all continue to monitor the COVID-19 pandemic, GE and GE Energy Consulting remain focused on serving you and our customers in their critical time of need.

If you have any questions or need support with a current and/or future projects, please do not hesitate to [contact us](#). We're available and ready to serve. We wish you and your families all the best and please stay safe.

Sincerely,

Elizabeth N. LaRose
General Manager, GE Energy Consulting

News & Insights

ICYMI... Carbon-Free Systems Webinar

Special thanks to all who recently attended the **“Carbon-free Systems: Can we really rely on the weather?” webinar** on **Tuesday, June 9**. GE Energy Consulting and GE Gas Power experts shared their experiences using a holistic systems approach with industry partners to enable new carbon reduction milestones in many regions across the globe.

The role of weather uncertainty, new technologies like hydrogen, and how fossil generation can help accelerate decarbonization were also highlighted.

In case you missed the live event, be sure to check out the *ON-DEMAND* version today. Just visit geenergyconsulting.com to access the webinar.

#INWED20

June 23 marked [International Women in Engineering Day](#) #INWED20. *International Women in Engineering Day* is an international awareness campaign to raise the profile of women in engineering and focus attention on the amazing career opportunities available to girls in this exciting industry. The campaign was launched in 2014 in 2019 over 280 events took place across the globe.

GE Energy Consulting is proud to support this international campaign encouraging girls to explore career pathways in engineering. We're proud to celebrate the work of all the women on our team, experts who are providing vital outcomes and support to our customers and partners throughout the world.

Learn more about just a few members of our team who are setting the example for future generations in the industry today.

Annual event moves online due to COVID-19

GE Energy Consulting hosted the annual **GE PSLF User Group Meeting** in a series of online meetings on **Tuesday, June 23 - Thursday, June 25** due to the ongoing COVID-19 pandemic. If you're a current GE PSLF licensee and user and you were not able to attend these online meetings and would like access to presentations, please [contact us](#) today. For more information on GE PSLF and additional power systems software tools from GE Energy Consulting, visit geenergyconsulting.com.

Navigating Grid Code Testing

Are you in need of grid code testing services and support? GE Energy Consulting has a long history of providing professional field-testing of power plants and grid equipment around the world to help ensure they meet both regulatory and grid requirements. Check out this [interactive online experience](#) showcasing our experience and work with partners across the globe.

For more information on our capabilities, and to connect with our team of experts, visit geenergyconsulting.com

DSTAR – Updates

GE's **DSTAR** consortium and its member utilities have been at the forefront of developing distributed energy planning strategies and tools for more than 30 years. **DSTAR** members recently completed the sixteenth program in their history. The final project from the current program, P16-8 Distribution Series Capacitor Applications and Recommendations, recently wrapped. For complete listing of projects from the Program 16 and to access project summaries visit geenergyconsulting.com.

What's next? **DSTAR** members are developing and implementing new R&D project scopes for Program 17. Members are also actively looking for additional members to join, to develop a diverse lineup of research projects that will be beneficial for the industry now and going forward.

For more information on **DSTAR**, including the benefits and value of the consortium, and ways to participate, visit geenergyconsulting.com or [contact us](#) today.

Education & Training

Power Systems and Energy Course (PSEC)

Since 1948, GE has provided power and energy professionals with educational resources and training through our **Power Systems and Energy Course (PSEC)**.

PSEC offerings are led by GE Energy Consulting instructors and subject matter experts like Jason MacDowell, Senior Technical Director, who teaches a variety of courses including *Power System Fundamentals*.

If you're looking for some additional training for yourself and/or your team, [contact us](#) today to customize an **onsite OR online** program. For additional information and to view our wide range of course offerings, visit geenergyconsulting.com.

The banner features the GE logo on the left. The main text reads "PSEC | Power System Fundamentals Course" followed by "Offering customized educational engineering training courses". Below this, there are two columns of student testimonials: "Excellent course. Glad I attended." and "Training materials were excellent." on the left, and "Excellent instructor." and "Perfect course." on the right, both attributed to "PSEC Students". A circular portrait of Jason MacDowell is on the left, with the text "EC Institute Profile Jason MacDowell" below it. On the right, a dark box contains the text "CONTACT US TODAY". At the bottom, the website "www.geenergyconsulting.com/education" is displayed.

GE Energy Consulting

For nearly a century, a core group of leading GE technical and business experts has focused its energies on solving the electric power industry's most pressing challenges - driving the evolution of electric power systems with greater affordability, reliability, and efficiency. Today, GE's Energy Consulting team continues this tradition by providing innovative solutions across the entire spectrum of power generation, delivery, and utilization. With our cross-company resources, GE's Energy Consulting business can serve a diverse global client base with a strong local presence.
