MAY / JUNE 2022

UPCOMING OPPORTUNITIES TO CONNECT

As the electric power industry continues on the path towards net-zero carbon, subject matter experts are needed to support the global transition. In the upcoming months, members of the GE Energy Consulting will participate in several industry sponsored conferences, events and working groups. Some of them are highlighted in this month's edition:

- **ESIG Grid-Forming Workshop** in Denver, Colorado
- **MACRUC Annual Education Conference** in Farmington, PA
- **IEEE PES General Meeting** and the **GE Energy Consulting Customer Appreciation Reception** in July in Denver, Colorado
- **CIGRE Session 2022** set for late August in Paris, France
- Our annual **GE MAPS and MARS User Group Meeting** set for August in Schenectady, New York (virtual option available.)

Our team looks forward to connecting with you and fellow industry customers, partners, and stakeholders as we navigate immediate and long-term planning goals and innovate a future towards net-zero carbon energy systems.

If you're not traveling in the months ahead, there are a number of opportunities to connect with our team and our partners across GE through a variety of digital events and experiences. Check out the wide range of resources including webinars, podcasts, white papers, and more on ge.com/gas-power. GE Energy Consulting recently launched a new website experience detailing global decarbonization trends, and showcasing pathways where our team can support you and your organization with future planning efforts. [Check it out online today.](#)

As always, if our team can be of assistance, please don't hesitate to contact us. We thank you for your business and we look forward to working with you in the future.

Kind regards,

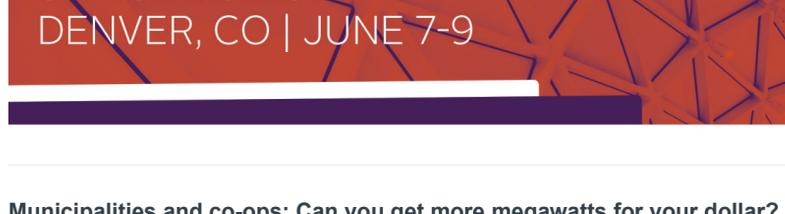

Beth LaRose
GE Energy Consulting

Reminder.... ESIG 2022 Special Topic Workshop: Grid-Forming IBRs

Save the date and register today! Members of the GE Energy Consulting team will be attending, participating, and providing insights during the upcoming **ESIG 2022 Special Topic Workshop: Grid-Forming IBRs** in Denver, Colorado, **June 7-9, 2022**.

For more information on this upcoming workshop and to register, visit esig.energy today.

Municipalities and co-ops: Can you get more megawatts for your dollar?

If you're the operator of a municipality or co-op, you're looking for power generation technologies that fit your profile and address energy gaps-without breaking the bank. GE has scalable, site-ready turbines at the ready, so you can concentrate on demand instead of downtime.

Please register to access this On-Demand panel discussion and Q&A session with our GE leaders, where you can:

- **LEARN** more about the challenges facing municipalities and co-ops, and ways you can handle them.
- **DISCOVER** new technologies to help you get up and running quickly and stay on the grid while saving money during this energy transition.
- **HEAR** real-life examples of how we have leveraged hydrogen to help our customers improve emissions and address grid stability.

For more information and to register for this On-Demand webinar, visit gepower.com today.

2022 GE PSLF User Group Meeting Highlights

Thanks so much to all who participated in the annual **GE PSLF User Group Meeting**, hosted by the GE Energy Consulting Software team. This year's meeting took place between **May 10 – May 12**. The meeting was held virtually in three half day sessions, from 8 a.m. – 12 noon PDT daily.

Special thanks to all our colleagues and partners who shared industry insights, case studies, updates across the GE PSLF tool, and more. For more information on this year's meeting and to provide feedback, please visit geenergyconsulting.com.

Members of the GE Energy Consulting team will be in attendance at the upcoming **Mid-Atlantic Conference of Regulatory Utilities Commissioners Annual Education Conference**, set for June 19 – June 22 in Farmington, PA. If you're participating in this year's event, please be sure to connect with members of our team throughout the event and at our networking booth. For more information on this year's conference, visit macruc.org.

Save the Date! Join us at IEEE PES GM in Denver, CO

We're pleased to announce that **GE Energy Consulting** is sponsoring and hosting our **Customer Appreciation Reception** on **Tuesday, July 19** between **4:30 – 6:30 p.m. MDT** at the **Sheraton Denver Downtown Hotel** during the annual **IEEE PES General Meeting** in Denver, Colorado. This event will be an opportunity for our fellow industry colleagues and partners to connect and network.

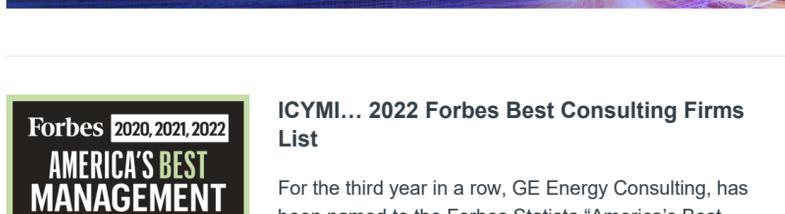

Stay tuned for more information regarding the event on [LinkedIn](#) and register online today at geenergyconsulting.com. We look forward to connecting with you at the complimentary event in July.

Save the Date! GE MAPS and MARS UGM for August 23-25

The annual **GE MAPS and MARS Users Group Meeting** has been scheduled for **Tuesday, August 23 – Thursday, August 25, 2022**, between 9 a.m. – 4 p.m. EDT.

This year's event will take place on the GE Campus in Schenectady, New York. For those that are not able to travel due to COVID restrictions, a virtual option will be available. Online registration, hotel accommodations, and agenda for this year's meeting will be available soon.

For additional information on **GE MAPS and MARS User Group Meeting**, please [contact us](#) today.

ICYMI... 2022 Forbes Best Consulting Firms List

For the third year in a row, GE Energy Consulting, has been named to the Forbes Statista "America's Best Management Consulting Firms 2022 List". America's Best Management Consulting Firms is comprised of the best consultancies based on results of an online, two-step methodology including expert and client surveys. For the complete list of awardees, visit [Forbes website](#). For more information on GE Energy Consulting's recognition, visit geenergyconsulting.com today.

Education & Training

Upcoming GE PSLF Courses

GE Energy Consulting's Software team annually holds a series of GE PSLF course offerings for users. If you and your organization are in need of additional training with the GE PSLF tool, visit geenergyconsulting.com to see the additional scheduled offerings for this year. If you have any questions or are looking for additional training options in the year ahead, please feel free to [contact us](#) to discuss and explore additional options.

PSLF Training OFFERINGS

The GE Energy Consulting Software team offers both custom and scheduled hands-on training courses for PSLF. A variety of courses for engineers with a range of familiarity with the software are held annually online. Customized courses may also be provided on-site at customer locations. The sessions are designed to help you unlock the full power of your investment in the PSLF software product and add-ons. Many of our training engineers have practical experience providing consulting services using PSLF, and most have been actively involved in the development of the tools. If you are interested in a custom or onsite training course outside of our normally scheduled courses, please contact us.
