### News & Insights

#### **During Earth Week, Governor Cuomo Announces \$280 Million Available for Energy Storage Projects to Combat Climate Change**

Funding is part of \$400 Million commitment to achieve New York’s 3,000 MW Storage Target. For full story visit [nyscrda.ny.gov](http://nyscrda.ny.gov) and for more information on how GE Energy Consulting is supporting customers and communities reach renewables targets, visit [geenergyconsulting.com](http://geenergyconsulting.com).

### **Energy Consulting partnering with ChargePoint at CEM10/MI-4 Vancouver**

ChargePoint and GE are pleased to collaborate to present “*Leading the Way to a Cleaner and ‘Smarter’ Energy Future*” at the [Tenth Clean Energy Ministerial](#) (CEM10) on **May 29** in **Vancouver, Canada**. For more information and to register for this event online, visit [geenergyconsulting.com](http://geenergyconsulting.com).

### **Renewables Integration Insights**

There is NOT a HARD LIMIT... Power grids can accommodate substantial levels of wind and solar power. Check out a variety of renewables integration case studies and projects from GE Energy Consulting online at [geenergyconsulting.com](http://geenergyconsulting.com).

### **Planning for a Distributed Energy Future... DSTAR**

GE's DSTAR consortium and its member utilities have been at the forefront of developing distributed energy planning strategies and tools for more than 30 years. GE would like to extend the invitation to interested partners and collaborators to attend our upcoming **Spring '19 Meeting** that will highlight trends with Data Analytics set for **May 29 in Chicago, IL**. For more information and to register, visit [geenergyconsulting.com](http://geenergyconsulting.com).

### **GE Software: Planning the Grid of the Future Today**

The electrical grid is perhaps the most complex machine ever invented. Without significant planning, making even the slightest changes to how it operates could have catastrophic consequences. Explore the wide range of GE's Energy Consulting software solutions that our customers and partners are leveraging to plan for the grid of the future at [geenergyconsulting.com](http://geenergyconsulting.com).

## THE FUTURE OF ENERGY - Inspiring people and innovative technologies

In this three-part series, GE Power explores the future of energy. Check out these empowering stories with host Mikey Kay at [ge.com/power/journeys](https://ge.com/power/journeys)
